RK Valley, AP, India

EDUCATION

B.Tech in Computer Science

Rajiv Gandhi University of Knowledge Technologies

Jan 2023 - Present

Grade – CGPA: 8.4 / 10

SKILLS

- **Languages:** C, Java, Python, JavaScript, HTML, CSS
- **Frameworks:** React.js, Node.js, Express, Flask
- **Databases:** MySQL, MongoDB
- **CS Fundamentals:** Data Structures, DBMS, OOP (Java), Digital Logic Design, DSA in Python
- **Tools:** VS Code, Jupyter Notebook, Canva, Git & GitHub
- **Domains:** Web Development, Machine Learning, Deep Learning, Data Science

INTERESTS

- Building user-centric web applications and machine learning models
- Exploring new frameworks, APIs, and tech stacks
- Participating in coding events and hackathons

PROJECTS

AI Travel Planner – Intelligent Multi-Agent LLMops System

- Built a full-stack AI-powered travel planning platform integrating LangGraph (multi-agent workflows) and FastAPI backend with React 19 front-end.
- Backend: Integrated Groq (Llama 3.3 70B) and OpenAI/GPT-OSS-120B, orchestrating 4 specialized tools (Weather, Places, Currency, Calculator) with real-time APIs (Google Places, Foursquare, Tavily).
- Frontend: Developed real-time AI chat interface, interactive maps (React Leaflet), Google OAuth 2.0 login, PDF plan export, and responsive glassmorphic UI with modern animations.
- Project Link

Restaurant Management System

- Designed a full-stack web app to manage restaurant operations with admin and customer portals.
- Admin: daily menu setup, special offers, and order tracking.
- Customer: interactive UI, cart system, and order placement with live tracking.
- **Technologies:** React.js, Node.js, MongoDB
- Project Link

IPL Mock Auction Website

- Created a platform for mock IPL auctions with live purse tracking and real-time updates.
- Enhanced usability and transparency of team bidding and player assignments.
- **Technologies:** React.js, Node.js, MongoDB
- Project Link

AMS (Attendance Management System)

- Developed full-stack attendance tracking app with biometric authentication, hardware device binding, and real-time push notifications serving 1000+ users across Admin, Faculty, and Student portals.
- Engineered CR portal for class scheduling, Excel bulk upload for assignments, and responsive UI supporting all Android device sizes.
- **Technologies:** React Native, TypeScript, Firebase, Node.js, Native Modules (Java)
